PROFESSIONAL SUMMARY

Results-driven Frontend Engineer with **2.5+ years** of experience building high-traffic SaaS products and hotel-tech platforms serving **200+** enterprise clients. Proven track record of cutting page **load times** by **50%**, raising Lighthouse scores **above 90**, and reducing regression rates by **67%** through rigorous testing – delivering measurable impact at every layer of the stack.

TECHNICAL SKILLS

Frontend: React.js, Next.js (App Router), TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI, Styled Components

State Management & Data Fetching: Redux Toolkit, React Query, Context API

Backend & Database: Node.js, Express.js, NestJS, PostgreSQL, TypeORM

API & Auth: REST APIs, GraphQL, Axios, Fetch API, JWT Authentication, Webhooks

Performance & Testing: Jest, React Testing Library, Web Vitals, Lighthouse, Code Splitting, Memoization, Lazy Loading

Tools & Tools: Git, GitHub Actions (CI/CD), AWS, Vercel, Netlify, Docker, Figma, Postman, Storybook

Core Concepts: SSR/CSR, Responsive Design, Mobile-First, SEO Optimization, Component-Based Architecture, Atomic Design, System Design

EXPERIENCE

UI Developer (Frontend Engineer) | Napses Technologies Pvt. Ltd. | Oct 2024 – Present | Bangalore

- Architected a modular **Next.js + TypeScript** frontend across 3 product verticals, building a reusable component library that cut code duplication by **40%** and accelerated feature delivery across all teams.
- Eliminated redundant re-renders via **memoization** and **code splitting**, reducing TTI from **4.2s to 2.7s** (36% faster) and sustaining Lighthouse performance scores **above 90** across all product releases.
- Engineered **100+ Jest unit tests** covering critical user flows, slashing regression reports from **~12 per sprint** to **under 4** (67% reduction) and lifting overall **code coverage to 85%+**.
- Delivered **15+ reusable**, accessible Tailwind CSS components in collaboration with design and QA teams, contributing to zero-downtime releases across 3 consecutive product sprints.

Frontend Developer | Eazotel Technologies Pvt. Ltd. | Mar 2023 – May 2024 | Gurugram

- Engineered and maintained **10+ high-traffic** hotel websites in React.js, cutting average page load time from **8.0s to 4.0s** (50% reduction) and achieving Lighthouse scores of **90+** across all properties.
- Built a **3-step Booking Engine** with inline validation and real-time availability sync, streamlining the end-to-end reservation flow for **200+ hotel** clients and reducing manual booking errors by an estimated **30%**.
- Developed **10+ integrated** SaaS dashboard modules (**Booking Engine, Channel Manager, CMS, Payments, WhatsApp, SEO**), cutting manual hotel operations by **40%** for **200+ enterprise clients**.
- Led a 4-member** frontend team across sprint planning, code reviews, and pair debugging – improving team velocity by **25%** and reducing production defect rate across **6 hotel** properties.
- Partnered with UX and backend teams to ship accessible, **mobile-first** hotel web apps, driving **Google Search Console** mobile usability score from **64 to 91** (+42%) across 6 properties.

PROJECTS

Hotel Hub

Next.js · NestJS · REST APIs · TailwindCSS · PostgreSQL, Cloudinary

- Built a full-stack hotel management SaaS with **JWT + RBAC authentication**, **React Query** data-fetching, and automated **CI/CD pipelines** – achieving zero-downtime deployments.
- Live: <https://bookmyhotel-2-unqu.onrender.com>

ChatSync

React.js · Node.js · Socket.io · MongoDB · JWT · Express.js

- Developed a real-time messaging platform using **Socket.io WebSockets** supporting live bi-directional communication with **secure JWT session** handling and scalable Node.js backend.
- GitHub:** github.com/Saurabh291099/chatsync

EDUCATION

Bachelor of Technology (Electronics & Communication Engineering)

Dr. A.P.J. Abdul Kalam Technical University Lucknow | 2019-2023

NOTABLE ACHIEVEMENTS

- Winner of 2-days Nation level** Marathon coding competition organized by Tula's Institute, Dehradun (2023).
- Our Team Got Fund** through **Council of Science And Technology**, LKO : Automatic Waste Segregation System.
- Runner Up**, AKTU, Lucknow : Junk-yard War (2022)
